

FREE RAINWATER & GRAYWATER EVENTS

PRESENTATIONS, PANEL DISCUSSIONS & MINI EXPOS FOR REBUILDING HOMEOWNERS

Join Daily Acts for two events on how to incorporate rainwater harvesting and graywater reuse systems into your rebuild. A brief presentation will be followed by a panel discussion with local experts and a mini expo to share resources and products, and connect with designers. These events will build on the optional features outlined in the scalable, easy-to-permit landscape templates found at Sonoma Marin Saving Water Partnership.

Thursday, October 4th & 18th, 6-8pm

October 4th – Rainwater Harvesting

October 18th – Graywater Reuse

Santa Rosa Utility Field Office, 35 Stony Point Rd.
